THE NATIONAL LIFELINE
LEBANON’S EMOTIONAL SUPPORT AND SUICIDE PREVENTION HELPLINE
in collaboration with the National Mental Health Program at the Ministry of Public Health

MONTHLY LIFELINE INDICATORS
REPORTING PERIOD
December 2022
Embrace Lifeline is the national helpline in Lebanon for emotional support and suicide prevention. Aggregate data related to the National Lifeline is captured, analyzed and disseminated on a monthly basis and annually for a yearly snapshot. The data is meant to offer a snapshot of the characteristics of callers to the helpline.

The National Lifeline’s trained operators capture anonymous data through a secure computerized system. The non-identifiable data is then analyzed and reported on a monthly basis.

The numbers in this report are meant to offer a snapshot of the population that the National Lifeline serves. Please note that while that this information is recorded as accurately as possible, not all information may always be available. Unless otherwise indicated, the frequencies and percentages reported in this document represents the percentage of observations in a given category out of the total non-missing information. The metrics in this document can be considered representative of calls received during the reported time-period.

December 2022
TOTAL NUMBER OF CALLS WITH CAPTURED DATA
813

I. AGE OF CALLERS (n=727)
Mean Age: 28

II. SEX OF CALLERS
49% Female
51% Male

III. COUNTRY OF CALLERS
98% Lebanon
1% Other*
1% Not Reported

*France, Saudi Arabia, Tunisia, Turkey, United Arab Emirates, United States of America
**IV. HOW CALLERS HEARD ABOUT THE LIFELINE**

227 callers informed us of how they first learned about the National Lifeline. The below chart summarizes their responses.

*Note: Percentages may not add up to 100% because each caller may have more than one status.*

- 2% Outreach
- 3% TV
- 3% Emergency Services
- 3% Agencies
- 4% NGO
- 5% Internet search
- 7% Other
- 11% Mental Health Professional
- 26% Family/Friend
- 37% Social Media

---

**V. SEXUAL ORIENTATION OF CALLERS**

12% of calls received by the Embrace Lifeline come from self-identifying LGBTQI+ individuals.

- 14% Lebanon
- 8% Not Reported
- 1% Syrian
- Others*

---

**VI. NATIONALITY OF CALLERS**

- 77% Lebanon
- 14% Egypt, Ethiopia, Palestine, Saudi Arabia, Tunisia
- 8% Other
- 1% Not Reported
VII. REGION OF RESIDENCE AMONG CALLERS FROM LEBANON

- Mount Lebanon: 33%
- Beirut: 29%
- Not Reported: 18%
- South: 6%
- North: 4%
- Bekaa: 4%
- Baalbek: 3%
- Nabatiyeh: 2%
- Akkar: 1%

VIII. MARITAL STATUS OF CALLERS

- Single: 47%
- Not Reported: 26%
- Married: 11%
- In a Relationship: 8%
- Divorced: 7%
- Separated: 1%
IX. CALLER LIVING WITH

- 56% Nuclear Family
- 25% Not Reported
- 11% Alone
- 3% Partner
- 2% Roommate
- 2% Extended Family
- 1% Living others

*Note: Percentages may not add up to 100% because each caller may endorse more than one living status.

X. HIGHEST LEVEL OF EDUCATION OF CALLERS

- Did Not Complete Primary/Elementary School: 1%
- Primary/Elementary School (1st to 6th Grade): 3%
- Middle School (7th to 9th Grade): 5%
- High School (10th to 12th Grade): 12%
- Bachelor's Degree (BS, BA, DEA): 33%
- Vocational/Technical Degree: 2%
- Master's Degree Completed (MS, MA, DESS): 9%
- Doctoral/Medical Degree (PhD, MD): 1%
- Operator did not ask: 31%
- Not reported: 3%
### XI. EMPLOYMENT OF CALLERS

<table>
<thead>
<tr>
<th>Employment Status</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Not Reported</td>
<td>36%</td>
</tr>
<tr>
<td>Unemployed</td>
<td>28%</td>
</tr>
<tr>
<td>Employed Full Time</td>
<td>16%</td>
</tr>
<tr>
<td>Employed Part Time</td>
<td>12%</td>
</tr>
<tr>
<td>Freelancer</td>
<td>6%</td>
</tr>
<tr>
<td>Part Time Student</td>
<td>4%</td>
</tr>
<tr>
<td>Homemaker</td>
<td>2%</td>
</tr>
<tr>
<td>Unable to Work</td>
<td>1%</td>
</tr>
</tbody>
</table>

*Note: Percentages may not add up to 100% because each caller may have more than one status.

### XII. CHANGE IN LEVEL OF DISTRESS FROM BEGINNING TO END OF CALL

- 91% of calls with available data for this indicator (n=270) reported a decrease in the level of distress from the beginning of the call to the end of the call.
- 9% of calls were from individuals whose level of distress did not change from the beginning to the end of the call.

*Note: In some callers, the level of distress may continue to be high even after seeking support from an emotional support service such as the National Lifeline, as the intensity of their distress may be linked to stressors they are facing that may remain unresolved. The Lifeline will orient callers to available resources and services depending on their needs. When received, such services would decrease their psychological distress.

### XIII. CALLERS CURRENTLY SEEKING MENTAL HEALTH SERVICES

- 56% of calls with available data for this indicator (n=775) are from individuals who reported currently receiving at least 1 mental health service.
XIV. TYPE OF CALL

*Note: This indicator is assessed by the operator based on their conversation with the caller. Percentages may not add up to 100% because the caller can express more than one type of concern (e.g., a caller could express both socioeconomic concerns and emotional distress).

XV. SUICIDE ATTEMPT ONGOING

2% of calls were from individuals who had a suicide attempt that was ongoing during the call.
I. LEVEL OF SATISFACTION

82 Quality assurance calls were conducted in November. 58 responded and agreed to participate. Beneficiaries were asked to rate their level of satisfaction with the services received during their initial call on a scale of 1 to 5 with higher numbers indicating greater satisfaction. Across all 58 callers, the average satisfaction rating was 4.44.

II. CALL OUTCOME

The below figure outlines caller-reported outcomes of their initial call to the Lifeline (N=58)

- Felt less distressed: 90%
- Felt more empowered to solve the presenting problem: 74%
- Felt hopeful/confident about the future: 47%
- Nothing changed: 10%
- Felt pessimistic/unsure about the future: 2%

*Note: Callers contacting the National Lifeline may be experiencing chronic/physical or socioeconomic difficulties which cannot be improved by a call to the National Lifeline (Emotional Support and Suicide Prevention Hotline).
III. RECOMMEND

98% of callers (n=58) reported that they would recommend the Lifeline to others in need of assistance.

IV. CALL BACK

91% of callers with available data (n=58) reported that they would call the Lifeline again if they were experiencing emotional distress or thinking about suicide.

V. HELPFULNESS OF ORIENTATION TO OTHER SERVICES

40 of the 58 callers were provided with referrals during their initial call to the Lifeline. 43% reported that the service was helpful. 33% reported that the service was not helpful due to issues related to the agencies themselves, location, unavailable service, preferences of the caller or personal reasons. 25% did not use the service yet due to various personal reasons.
X. SOCIAL WORK

The Lifeline social worker aims to orient and manage the cases of callers who call the National Lifeline (1564) and are in imminent suicide risk with supportive community resources when persons are in life threatening situations and are in need of resourcing. This is done through orientations to organizations providing mental health or other livelihood or protection services and case management services. The Lifeline social worker coordinates with other members of the Lifeline team including operators, lifeline supervisors and lifeline manager.

TOTAL NUMBER OF CONSULTATIONS*: 50

1ST CONSULT#: 9
FOLLOW UP**: 41

TOTAL NUMBER OF ACTIVE CASES: 12
TOTAL NUMBER OF CLOSED CASES: 22
TOTAL NUMBER OF CALLERS ENGAGED WITH: 23

*Total number of consultations: Refers to all social work consultations taking place between the Lifeline Mental Health Social Worker and the caller referred (may include more than 1 consultation per caller)

Total Number of Active Cases: Refers to the number of callers who are still being followed up by the Mental Health Social Worker

# 1st Consults: Refers to the number of cases contacted by the Mental Health Social Worker for the 1st consultation after being referred from the Lifeline.

**Follow up: Refers to the number of follow up consultations (out of the total consultations)

**Follow Up Consultations can be carried out with the callers directly or with the relevant party at a referred resource.

76% of follow up consultations were conducted with the relevant party at the referred resource (e.g., a case manager at a rehab facility).

5% of follow up consultations were conducted directly with the callers (or their parent/legal guardian where a minor was involved).

19% of follow up consultations received no response from the follow up party (either the caller or referred source).

CLOSED CASES (N=22)

- Goal Achieved: 64%
- Other*: 36%

*Beneficiary unreachable/done all that is possible/referred to another source
**Note** that percentages for the above bar charts may add up to more than 100% because the callers may be referred for several reasons; Abbreviations: MH = Mental Health, GBV = Gender Based violence.

---

**Urgency Level (N=9)**

- **Moderate**: 11%
- **High**: 89%

---

**Reasons for Referral (N=9)**

- **MH Services**: 100%
- **GBV**: 78%
- **Other**: 67%
- **Severe Economic Distress**: 56%
- **Child Protection**: 33%

---

**Referrals Provided (N=9)**

- **MH Services**: 100%
- **General Health**: 78%
- **GBV**: 67%
- **Financial Assistance**: 56%
- **Child Protection**: 44%
- **Food Assistance**: 44%
- **Education Services**: 22%
- **Shelter**: 11%

---

**Note** that percentages for the above bar chart may add up to more than 100% because multiple types of referrals can be provided; Abbreviations: MH = Mental Health, NGO = Non-Governmental Organization, GBV = Gender Based violence.
The below charts present the demographics of all callers the social worker engaged with. This includes new cases and follow ups on other cases active from previous months.

**SEX DISTRIBUTION**
- Male: 31%
- Female: 4%
- Other: 65%

**AGE GROUPS**
- <18: 8%
- 18-24: 13%
- 25-34: 31%
- 35-44: 13%
- 45-54: 31%

**NATIONALITY**
- Lebanese: 57%
- Syrian: 43%

**GEOGRAPHIC LOCATION**
- Mount Lebanon: 9%
- Beirut: 9%
- Bekaa: 13%
- South: 22%
- North: 43%
